YOUR PARTNER FOR OUTDOOR ARCHITECTURAL SOLUTIONS

For over 40 years, Valrose has redefined outdoor living across Florida with unmatched superior quality, technical expertise, and Florida-rated builds engineered to thrive in the Sunshine State's toughest conditions.

We don't just install structures—we craft elevated outdoor lifestyles. Every Valrose project is a seamless fusion of architectural precision, hurricane-rated resilience, and timeless design, ensuring your patio, pergola, or pool enclosure stands as a legacy of excellence for generations.

WHY VALROSE?

- 40+ Years of Mastery — Proven leadership in Florida's outdoor construction landscape.
- Florida-Rated Engineering — Built to exceed state wind, impact, and flood codes—no compromises.
- Technical Expertise — In-house designers, structural engineers, and certified installers.
- Unrivaled Quality — Premium materials, flawless finishes, and obsessive attention to detail.
-

Your vision. Our expertise. A lifetime outdoors.

Partner with Valrose—where Florida's best homes come to life outside

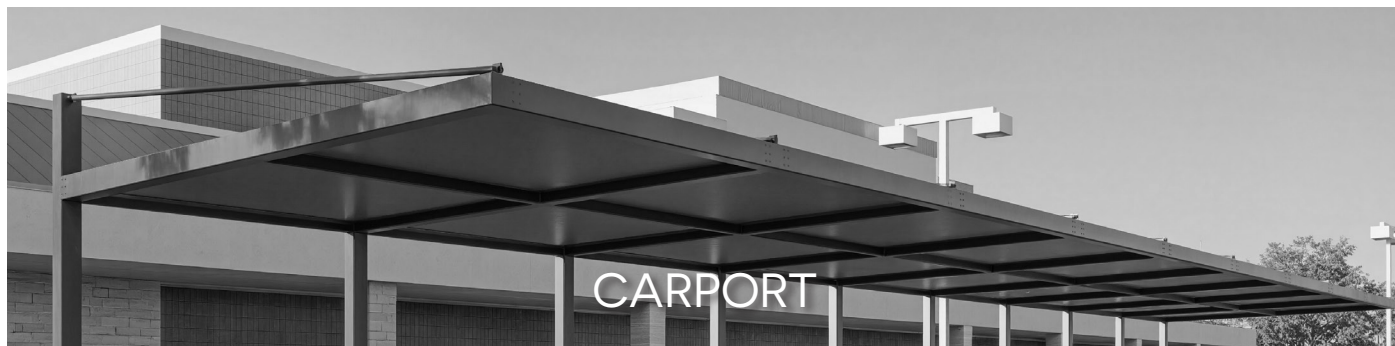

BUILT TO OUTLAST, CRAFTED TO OUTSHINE

40 years in business isn't a milestone—it's our unfair advantage. While others outsource and compromise, Valrose controls every inch of excellence from our state-of-the-art South Florida manufacturing facility.

- 100% In-House Fabrication — Every beam, panel, and component is precision-engineered under one roof in South Florida, ensuring zero delays, zero shortcuts, and zero surprises.
- Premium-Grade Materials — Marine-grade aluminum, impact-rated glass, and proprietary powder-coat finishes selected for Florida's harshest elements—salt, sun, and storms.
- Superior End Product — Flawless welds, seamless integration, and finishes that resist fade, corrosion, and wear for decades—not years.

No middlemen. No markups. No equals.

Valrose doesn't just build outdoor structures—we manufacture legacies.

COMMERCIAL SOLUTIONS FOR COMMERCIAL SPACES

A contemporary design created to elevate the experience in restaurants and hotels. Our clean structure, defined lines, and balanced proportions bring a sophisticated character that integrates naturally into high-end hospitality spaces.

Our products represent a smart investment: durable systems with competitive pricing, fast installation times, and reliable performance, ensuring on-site efficiency and long-term value.

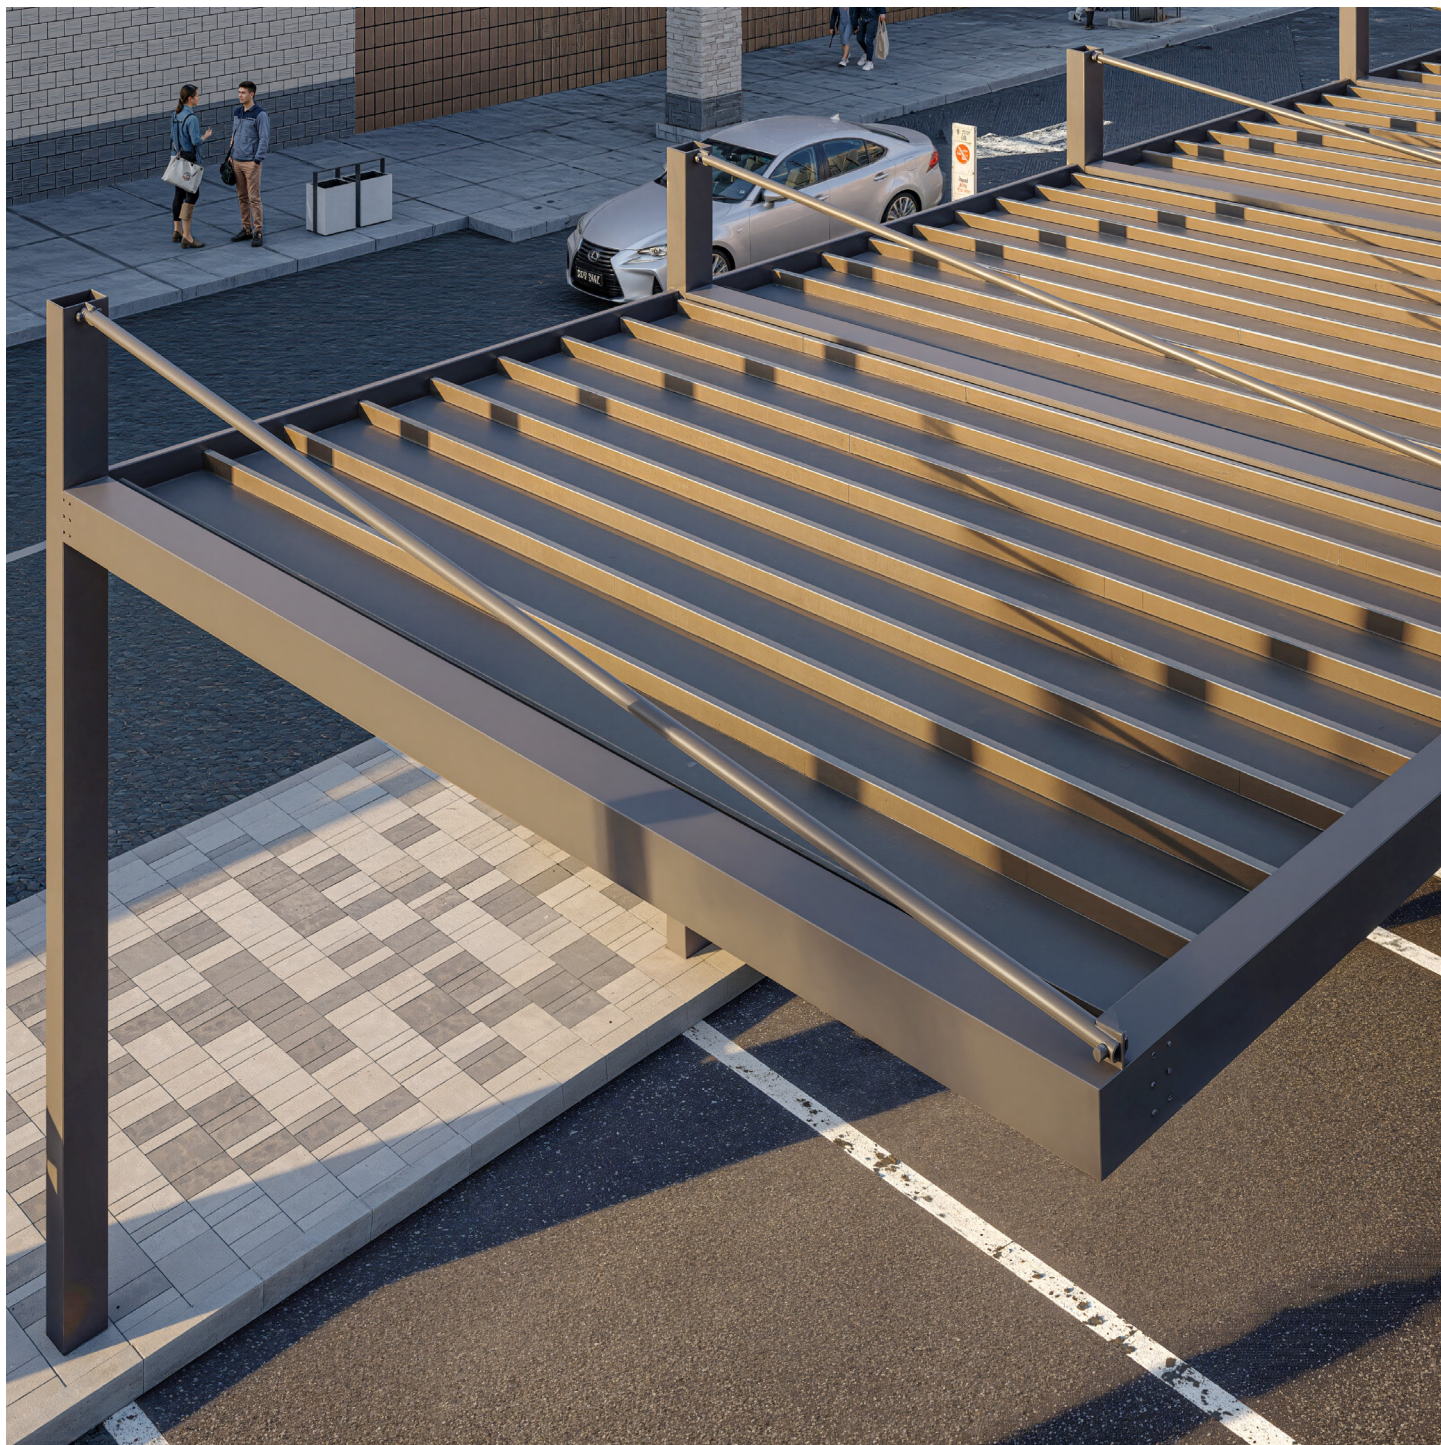

PARKING SHADE SOLUTIONS

More than a shading structure, our carport is an architectural solution that brings order, elegance, and visual harmony to parking areas. Its modular design allows flexible configurations for different capacities, while providing reliable protection against sun exposure, heat, and weather conditions.

Designed for efficiency, it offers fast installation, long-lasting performance, and minimal maintenance, making it a smart and reliable investment.

PARKS AND PLAYGROUNDS

Our sail shade becomes a design element that transforms children's playgrounds and parks. Its lightweight, contemporary form provides safe and effective sun protection while adding dynamism, color, and character to the space.

COMMERCIAL PROPERTIES

With a contemporary aesthetic, our products become key architectural elements for commercial properties. Our systems enhance the user experience by protecting entrances and outdoor areas, while reinforcing brand identity—combining functionality, design, and commercial character in a single gesture.

An efficient and reliable solution for developers and contractors, offering competitive pricing, fast installation, and durable performance that ensures long-term value.
